Section	Score	Confidence Band ¹	Percentile Rank of Score ²	Score Profile ³
Chemical and Physical Foundations of Biological Systems	131	130  132	99%	
Critical Analysis and Reasoning Skills	129	128  130	95%	
Biological and Biochemical Foundations of Living Systems	130	129  131	96%	
Psychological, Social, and Biological Foundations of Behavior	130	129  131	92%	
MCAT Total	520	518  522	97%	

NOTES:

1. Test scores, like other measurements, are not perfectly precise. The confidence bands around test scores mark the ranges in which your true scores probably lie. The diamond shapes and shading

show your true scores are more likely to be your reported scores (in the second column) than the other scores in the confidence bands.

2. The percentile ranks of scores are the percentages of test takers who received the same scores or lower scores than you did. The percentile ranks are updated on May 1 every year to reflect the results from the three most recent previous calendar years.

3. For the four sections, non-overlapping confidence bands show your likely strengths and weaknesses. Overlapping confidence bands suggest that there are not meaningful differences in performance between sections.
